

Staff go green in new recycling scheme

A LOCAL company has introduced a new paper-recycling scheme aimed at reducing their impact on depleting forests.

Fone Logistics, based in Cramlington, has teamed up with leading recycling company yoyo to introduce the scheme, and is encouraging all staff to fully participate.

And at the launch of the programme, Fone Logistics – which provides mobile

airtime and handsets to the independent dealer market and on-site mobile repair centre – allowed a dress down day, with the only stipulation being an item of green must be worn.

The scheme – which sees one company source, deliver, take away and recycle all office paper – aims to reduce general waste each month.
